

NEBULAR PAY

A compact contactless solution for modern vending

Connect. Pay. Simplify.

coges

NEBULAR PAY

The Nebular Pay Reader is a contactless credit and debit card reader designed specifically for vending applications.

Nebular Pay reader enhances user satisfaction by offering a familiar, reliable payment method—without the need for cash or registration.

All contactless payments

Accepts contactless cards, NFC wallets, and mobile apps like Apple Pay and Google Pay

Compact and easy to install

Fits on vending machines without obstructing the bill validator

Cloud-connected

Remote management of sales, pricing, refunds, and diagnostics

Secure and integrated

Compatible with Coges systems for full telemetry and accounting

Attract more users by supporting widely adopted contactless and mobile payments

Easy to install and compatible with Coges payment systems, it enables fast, secure transactions

Ideal for public and semi-public locations

Thanks to Vendon Cloud connectivity, operators can monitor transactions, manage refunds, and update settings remotely.
