with ease.

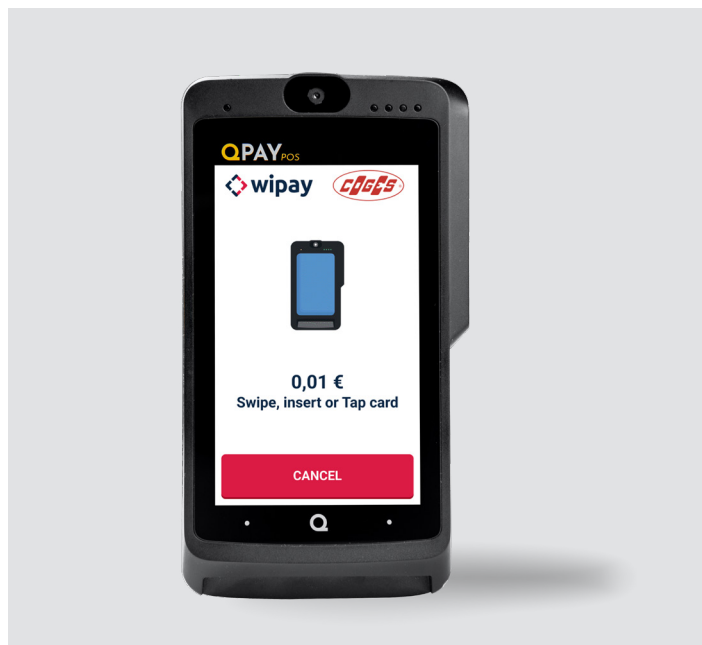

Connect. Pay. Simplify.

coges

QPAYPOS

Expand your payment options for vending machines with a customizable, user-friendly credit card reader that delivers a retail-like shopping experience.

Secure transactions

Reliable communications between the terminal, the payment system and the banking circuits.

Speed of payment

Payment in seconds to ensure maximum user satisfaction.

User friendly interface

Intuitive touch screen for quick interaction even with occasional users

PIN on screen

Enter your PIN directly on the screen when required.

Reduce cash management risk by collecting incomes directly into your bank account.

Compatible with all credit cards, even virtualized on smartphones or other smart devices.

Top-up closed-loop cashless media such as MyKey or MIFARE fobs

Available in vandal-proof and compatible with chip cards and magnetic stripes versions
