Flexibility in configuration to adapt to your needs in each location

Vending

200 price lines
4 media tables
OTA updates
EVA-DTS data audit

Loyalty
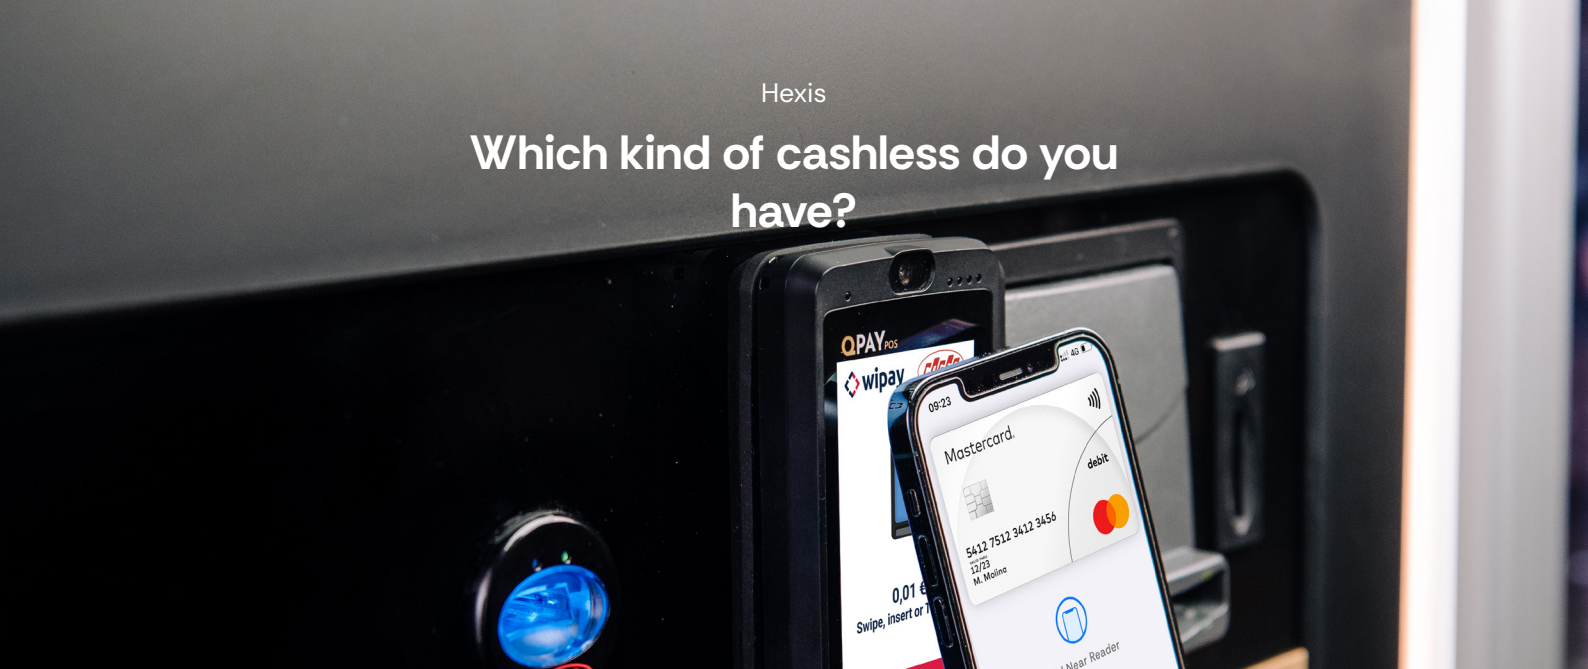

Top-up and free sales bonuses
Eco-recycling
Meal vouchers

Security

Lock-ID
Blacklist
Transactions recording
Encrypted communications

Which kind of cashless do you have?

Choose the cashless reader that best suit your needs and increase the value of your vending machine. All models can be equipped with telemetry and Bluetooth expansion modules to connect to a credit card reader or to mobile applications.

MyKey - MIFARE - LEGIC

Depending on the reader, Hexis supports MyKey, MIFARE Classic and DESFire or LEGIC media.

Credit card

Thanks to an optional connectivity module, Hexis supports contactless or chip credit card readers.

Mobile

Hexis can handle smartphone payments with the Pay4Vend app or third-party apps.

Best precision in the validation

Hexis uses multi-frequency coin validation to analyze over 200 parameters, ensuring precise recognition, broad currency support, and enhanced fraud detection.

This improves security, reduces counterfeit acceptance, and boosts reliability for vending operators.

All **sales transactions** are recorded in a format ready for export and analysis to optimize your **business intelligence.**

Get the most out of Hexis

HEXIS

Insert Coins
Mon 08/02 17:58

Configure Hexis as a master system and activate Price Holding mode to set different prices for cash and cashless payments. This setup lets you track detailed accounting data, including sales, coin levels in tubes, and cashbox totals, ensuring full control over transactions and machine performance.

nebular

Ready for Nebular

Get the best from your vending machine by taking advantage of all Cloud potentiality thanks to the native integration between Hexis and Nebular, our solution to offer electronic payments and connectivity in a single product.

Make your job faster and more efficient thanks to remote credit refund, stock and transactions management.

Designed by Coges, Nebular integrates naturally with your vending machine and your ERP.

Operate remotely on payment peripherals, updating parameters, firmware and coin database.

Act quickly if an alarm is signaled and use sales information to optimize your management.

Nebular brings Hexis data directly to your ERP, on the web or in your mobile phone, in real time.
