

E.C.S. Air

The first compact cashless system
for MyKey and Mifare

Connect. Pay. Simplify.

coges

E.C.S. AIR

E.C.S. Air is a compact MDB cashless system that delivers all the essential features for efficient vending management.

It supports both MyKey cashless keys and MIFARE technology (including fobs, tags, stickers, and cards), offering a flexible and reliable payment solution in a small footprint.

Improved user experience

Enables quick and convenient mobile and key-based payments

Simplified operations

Reduces reliance on cash and lowers maintenance needs

Easy installation

Plug-and-play setup via standard MDB connection

Perfect for semi-public locations

Ideal for schools, offices, and factories where closed-loop systems thrive

Offer an entry-level cashless solution with all essential functions

Minimal footprint, perfect for small vending machines or installations with limited space

Compatible with MyKey and MIFARE media (cards, tags, key fobs)

Supports Pay4Vend app for smartphone-based transactions
